

Year-End Screws Barrels Clearance List

Note:

- This list was sorted by machine type, then injection unit.
- Some can be used for both FNX and NEX, which are indicated as "FNX/NEX."
- Some can be used for both FNX and FVX, which are indicated as "FNX/FVX."
- Screws and barrels for vertical machines are indicated as "Vertical" regardless of machine types.
- These items have been pressured tested during the assembly process of machines. These items have never been ran in production, but may have remnant plastic inside from the testing process. After installation, we recommend to purge material before putting the machine into production.
